

Ornament template (3"x3" square):

Note: this template is provided so that you can design your ornament ahead of time if you wish; however, you will need to re-draw it on the actual piece of metal in lab, so keep that in mind in terms of how much effort you put into this sketch. Some students are able to trace/transfer their sketch to the actual ornament, but most re-draw it.

Also note that there is a hole (for hanging) at one end of the square.
